Task 0 – Construct-O-Bot

Welcome to **Task 0** of **Construct-O-Bot**!!

The aim of this task is to get you started with installation of required software and learn the basics of V-REP.
This task is divided into three parts:

- ❖ Simulation Software Installation
- ❖ Visual Studio IDE Installation
- ❖ Tutorials on V-REP

Note: It is recommended in this theme to use only Windows OS.

Please find the following folders within **Task 0** that contains this **Read Me** file.

- ❖ First folder is *Installation Instructions*

  ➢ Please find the following file/s in this folder and instructions in these files to install V-REP and Visual Studio IDE software.
    File: Visual_Studio_IDE_Installation.pdf
    File: V-REP_Installation.pdf

- ❖ Second folder is *Tutorial*

  ➢ Please find the following file in this folder
    File: Simulation_Resources.pdf
    Open this PDF file and follow the instructions to learn the basics of V-REP.

- ❖ Third folder is *Test Setup*

  ➢ Please find the following files in this folder:
    File: CB_Software_Testing.pdf
    Open this PDF file and follow the instructions to test the installed software to complete the task as instructed.
